4 Commercial property rights

Koelnmesse GmbH does not want any exhibitors who, in the process of producing, disseminating, selling, owning or advertising their products, violate laws regarding the protection of intellectual property or commercial property rights in the broadest sense.

If a final court decision has determined that an exhibitor at one of Koelnmesse GmbH's events has violated laws of the kind mentioned in paragraph 1, Koelnmesse GmbH is entitled to bar that exhibitor from the next event of this kind after the court decision is res judicata if there is sufficient suspicion that the exhibitor will again and repeatedly violate laws for the protection of intellectual property or commercial property rights.

5 Stand sizes and construction

The minimum stand size is 12 m².

Please note that hall pillars and other fixed construction elements may be present in any part of the rented stand area. The participation fee will be calculated according to the exact dimensions of the stand area allocated. Trade fair partition walls for dividing the stand area are not automatically provided. If needed as stand construction elements, however, they can be ordered for a fee by using Form S.10 from the Service Package.

The Service Package, which includes technical construction guidelines and order forms for various services, can be accessed online following receipt of stand confirmation.

You can download the Technical Guidelines from the event's website or from www.koelnmesse-service-portal.de. There is also always the option of requesting the Technical Guidelines in printed form or on CD-ROM.

This fee does not include stand construction.

Koelnmesse will erect partition walls only if this is necessary for safety reasons due to the installation of water pipes or electrical systems.

Stand construction and design must adhere to all regulations that are valid in Germany (including the NRW venue regulations, the DIN and EN standards, the VDE regulations, and the accident prevention regulations of the professional associations in the currently valid versions). All these provisions apply to both the company's own as well as to independent stand designers, decorators, and signwriters and to all persons, in as far as they perform activities as commissioned by the exhibitor or on the exhibitor's behalf in connection with the construction and design of the stand.

The exhibitor is responsible for ensuring that all regulations are complied with. The exhibitor must supervise construction personnel and other persons working for him/her to make sure they adhere to the regulations.

The maximum permissible stand height is 6.00 metres.

Stand which are planned to exceed this height require prior written approval from Koelnmesse.

As long as the technical guidelines are observed when designing and erecting stands, there is no need to submit for approval drawings for one-storey stands that do not exceed the permissible height. All other stands and designs must be approved, particularly if the stand features special structures or meeting areas, or static calculations are required. Plans must be submitted in duplicate for approval by Koelnmesse in good time before the work is carried out, and at least 6 weeks before the event commences.

These documents, which can be scrutinized, consist of ground plans, views and design cross sections with all measurements.

Stand construction may not commence until the exhibitor has received a copy bearing Koelnmesse's notice of approval. This notice of approval does not release the exhibitor from the observance of the relevant provisions.

It only states that Koelnmesse has no objections in the context of stand design/arrangement. If requested to do so by Koelnmesse, the exhibitor is obliged to submit any additionally required information relating to the stand immediately.

There is no obligation on the part of Koelnmesse to ensure the observance of other provisions.

Nevertheless, if an infringement of the relevant provisions is found to have been committed, Koelnmesse can, for this reason, also refuse to provide the notice of approval. The exhibitor is also aware of the fact that in exceptional cases at his/her request and on his/her account the stand construction documents must be submitted to the responsible authorities for scrutiny. Irrespective of official approvals of the stand, any objections made by Koelnmesse concerning the stand must be immediately complied with.

In case of imminent danger, Koelnmesse is entitled to determine at its absolute discretion the measures necessary and have them implemented at the exhibitor's expense.

If at all possible, the trade fair company (Koelnmesse) will try to provide the stand in the desired form. The following terms are used for the stands:

Terrace stand:	one side open
Corner stand:	two sides open
Two-corner stand:	three sides open
Island stand:	four sides open

The stand must be constructed to comply with the form of the stand confirmed. The arrangement of the stand is left to the exhibitor but should be appropriate for the event in question.

The exhibitor has to obtain information on the load capacity of the hall floor and the hall headroom. Only the on-site measurements apply to stand space.

Banners and company signs are not permitted to encroach into the aisles. Koelnmesse Service GmbH also offers a completely outfitted turnkey stand system. Order Forms S.01 to S.08 are included in the Service Package, which will be sent to you with your space confirmation.

For information about alternative types of stand construction, please contact Koelnmesse Service GmbH.

For a surcharge, exhibitors can rent further equipment in addition to the standard furnishings.

On the last day of construction, the aisles must be completely cleared by **8:00 p.m.**

Exhibitor and work passes that were paid for but not used can be returned to Koelnmesse until the last day of the trade fair for a refund of the fee. Transferring a pass to a third party – whether sold or given free of charge – is not permitted and represents a severe violation of the Conditions of Participation, in accordance with Item VI of the General Conditions of Participation. You will also receive free work passes that allow your company's personnel access to the fair grounds during the construction and dismantling periods. These passes are only valid up to the start of, and after the end of the event. They do not entitle the holders to enter the grounds during the event. These passes will also be sent together with the invoice for your stand.
